

Rembrandt Enterprises 2014 Grain Policies:

Disposition of grain must be established within 10 days of delivery or it will be priced at the close of the market on the 10th day.

Corn

Moisture base will be 15% on all delivered corn and Price Later contracts.

Moisture will be averaged up to 10 days after the first day of delivery.

1.5% drying and handling shrink per point of moisture removed from wet corn.

Moisture discount is \$.04 per point of moisture removed.

Drying charges subject to change without notice.

Price Later Corn

There will be no service fee for new bushels placed on price later between September 1, 2014 and August 28, 2015. All Price Later Contracts expire August 28, 2015. Un-priced corn will be priced at close on August 28, 2015. The option to roll a Price Later Contract is available for a .16 per bushel charge.

Quality

Maximum F.M. --- 3%

Maximum Damage --- 3%

Minimum Test Weight --- 54#

Test Weight and F.M. will be averaged up to 10 days after first day of delivery.

Loads may be subject to rejection if quality standards are out of tolerance.

Musty, sour or odorous grain may be rejected at any time.

*Thompson location - Drying charges not applicable. Moisture greater than 15.5% subject to rejection.

**Grain policies subject to change without notice.
